Edited by PETER PARLEY. With Eight Original Designs. One handsome 12mo., $1.00. The same, in full gilt sides and edges, $1.50.

"Every child in the United States who has any taste for good books will brighten up at the name of the venerable Peter Parley. Two new volumes from his charmingly easy pen will be as welcome as the Thanksgiving roast turkey. In the "Balloon Travels" you have a bird's-eye view of the most interesting portions of Europe, as you soar into the upper air at the side of the famous Mr. Robert Merry. He is kind enough to tell you all about the earliest objects you see looking down upon, and by the time you have finished your aerial journey you will find that you know much more than when you started. Mr. Gilbert Go-Ahead is another guess sort of a person. He travels over the best part of the world by land and sea and has no taste for ridin' in balloons. When he comes home he has a plenty of stories to relate about the wonders he has seen abroad. Besides the delightful tale which Peter gives you in these books, they are full of fine engravings, which almost make you feel as if you had seen the curiosities he tells about."—*N. Y. News of the Morning.

We hear from Washington, that the prospects of an organization are growing brighter, and the election of BANKS as Speaker, is confidently looked for, this week. Gen WALKER, of Filibustering notoriety, is getting into hot water in Nicaragua. The New York Assembly is still without a Speaker, waiting, no doubt, for Congress to set them a good example. The Virginia K. N's, have already got their candidate for President in the field. We have no later news from Madison, than that brought by yesterday's mail. Yesterday, as will appear from our paper, was probably the coldest morning ever experienced in the Northwest. When we went to press last night, the weather was moderating.

Effects of the Cold Weather.—Derangement of Railway Trains.

The intense cold weather of the last three days has interrupted the running of the Railway trains in all directions. The extreme cold renders the axles and the tires and flanges of the wheels, both of Cars and Locomotives, exceedingly brittle and not a few breakages have resulted. The train which left Madison for Milwaukee, on the M. & M. R. R. Tuesday afternoon, came along well enough till mid-way between Whitewater and Palmyra, when an axle of the rear car gave way and nothing but the prompt stopping of the train saved the car from being broken to pieces. The passengers, 100 or more in number, all crowded into the front car, and so rode until within 3 miles of Waukesha, when *both* axles of this car broke in two, the trucks fell out on either side, and the car dropped bodily upon the rail. The train was instantly stopped and fortunately no further harm done. The passengers were crowded into the baggage car, and so rode into Milwaukee, reaching here after midnight.

The morning train from Madison yesterday, due at mid day, did not get in till nearly 6 P. M., having waited at Whitewater a long time for the train bound West. This last started, but did not go through; and no afternoon train left either end of the route. No morning train from Chicago on the Lake Shore R. R. came up yesterday, but the afternoon train got in, in its regular time.

The Milwaukee and Mississippi train will leave at 7½ this morning, and the Watertown train at the usual time.

Memorializing the Legislature.

In view of the doubts hanging over the question of the Governorship and the general desire among the people to see that doubt speedily solved, and the man who received the most votes formally inducted into office, the following petition has been prepared and is circulating for signatures, in different parts of the State. The Madison *Patriot*, (Dem.) says that it is quite numerously signed in that quarter:

To the Honorable, the Senate and Assembly, of Wisconsin:

Whereas, sundry reports and statements are in circulation, impeaching the character of the canvass, by which the certificate was awarded to Wm. A. Barstow, and whereas, we, your petitioners, do not undertake to decide the matter, but as good citizens, prizing the purity of the elections, and the sacredness of the ballot box, as the chief corner stone of our liberties.

We, therefore, respectfully, yet earnestly pray the Honorable Legislature to investigate these several charges, and if frauds appear to have been committed, to refuse to recognize said Wm. A. Barstow as Governor, until the question is legally settled by the Supreme tribunal of the State.

And as in duty bound we will ever pray, &c.

Inaugurated.

Yesterday, at 12 1-2 o'clock, Coles Bashford, the Governor of Wisconsin, was sworn into office. The oath was administered by Chief Justice Whiton, in the Supreme Court room. Quite a concourse of people witnessed the ceremony, which was conducted in a very quiet, dignified manner.

The streets echoed with shouts and huzzas for Bashford all day.—*Madison Patriot, (Dem.)*

As we stated yesterday, this proceeding on the part of Gov. BASHFORD was preliminary to submitting his claims to the Executive chair to the arbitrament of the Supreme Court, and was at once the formal protest of his belief that he was of right entitled to that post and an earnest of his determination to prosecute and maintain his claim and the rights of the People, by all lawful and honorable means. Chief Justice WHITON, in administering the oath, did no more than his duty; and yet for this act he was bitterly denounced by the more intemperate Barstowites, and even threatened with *impeachment!* We should admire to see them "try on" their impeachment.

THE COLD ELSEWHERE.—At Chicago, yesterday morning, the thermometer marked 24 degrees below zero. At Horicon, in this State, it was 26 and at Hartford, 25 below; at Madison, it was 25 below. The Telegraph reports the cold as almost equally severe on the Atlantic seaboard. Take it altogether, we doubt whether the Northern States had ever a stronger chill on than during Tuesday and yesterday.

CHIEF JUSTICE TANEY.—The Baltimore *Patriot* of Wednesday last reports the health of Chief Justice TANEY so far restored as to justify the expectation that he will be able to resume his seat on the Bench of the U. S. Supreme Court, during the present week.

FIRE AT HEBRON.—We learn that the Flouring Mill of J. POWERS, at Hebron, Jefferson County, was totally destroyed by fire on Monday night last.

Rail Roads in the United States.—Comparative Cost and Earnings.

The following table, taken from the Rail Road *Record*, shows the number of miles completed and in progress, in the different Sections of the Union:

	M. in op.	M. in prog.
Railroads of Ohio	2,476	1,360
" Indiana	1,329	1,367
" Illinois,	2,247	1,297
" Michigan,	921	46
" Wisconsin,	337	335
" Mo. Ark. and Iowa,	152	2,196½
" The South-west,	1,420	2,773
" The South'n Atlantic,	3,702	2,143
" The N'th'n Mid States	4,469	1,474
" New England,	3,405	79
Aggregate in 1855,	20,260	14,071½
" 1854,	17,813	14,989
Change—Increase,	2,447	dec. 917½

The number of miles completed in Illinois during the year was 440, or a little less than one-fifth of the entire increase in the United States. The next largest increase was in Ohio, the figures showing 272 miles over 1854. Wisconsin increased 164 miles, Indiana 91 miles, and Michigan 86 miles.

A table of the cost of the principal Railways of the country, shows that the two most expensive roads are the Philadelphia & Reading, which cost $199,-800 per mile, and the Hudson River, which cost $80,000 per mile; and the two cheapest are the New Albany & Salem—$23,800 per mile, and the Milwaukee & Mississippi — $26,470. The roads which show the greatest proportionate increase in receipts for this year over the last, are the Chicago & Galena—76.52 per cent, and the Milwaukee & Mississippi—51 pr. ct.—the latter being yet unfinished, while the former has been completed and running for a year or two. Our western roads certainly show well in these tables. They are the most cheaply built, and their earnings the largest of any roads in the Union.

Milwaukee & Mississippi R. R.

The Board of Directors of this pioneer rail road, at their meeting yesterday, declared a dividend on their last six month's business, of 5 per cent. in cash and 7 per cent. in stock, making, with the 5 per cent. cash dividend in July last, a total, for the year, of *seventeen* per cent. The dividends on stock, standing on the books of the company at Milwaukee, are payable on and after the 1st of February next, and those payable at the company's agency in New York, on and after the 20th inst.

The gross earnings for the year were $691,-249 79, and the operating expenses $275,797 06—making the nett earnings of the year $417,-448 73. This is an increase of about *fifty-one* per cent. on the earnings of the preceding year, mainly derived from the vast freighting business, which is, after all, the great paying feature of railroads. The Annual Report of the Directors was adopted yesterday, and will be published in about a week. It is full of interesting information, as to the progress and triumphant success of this great Railroad enterprize of our State.

SPECIFICATIONS CALLED FOR—RICHLAND COUNTY.—The Madison *Argus*, by way of offset to the conceded Waupaca frauds, intimated that unfair means had been used to swell the majorities for BASHFORD in certain Counties. RICHLAND was one of the Counties named by the *Argus* and the charge calls forth the following rejoinder from the Richland Co. *Observer*:

Where Messrs. Calkins & Proudfit obtained their information about our county canvassers, we should like to know; because, it would, indeed, be an item of news for the inhabitants of this county to talk about. We have made some inquiry relative to the charge, but we have not met the first man who has suspicioned, in the least, that any thing has been wrong with the Board of Canvassers of this county. And, since the charge has been made, it is but just to the subscribers of the *Argus & Democrat* in this county that they should be made acquainted with the men who are capable of any villainies or "*darker transactions*" in the disposal of their votes. Come, gentlemen, if you know, or have *any* evidence whatever, of a single vote in this county being *taken from* BARSTOW *by the County Canvassers*, out with it. Come, gentlemen, we demand the proof.

The *Observer* will call in vain. The *Argus* can furnish no "proof" in support of its charges, for none exist. These and like stories were manufactured to order, out of whole cloth, without a single fact to sustain them, for the sole purpose of diverting attention, if possible, from the wholesale fraud in Waupaca, Polk, Dunn, Chippewa and other Counties.

☞ The President's Message, we have seen both praised and condemned. If the President had not felt himself called upon to preach a sermon on imaginary dangers to the Union, we should like it better. There is a direct charge of want of intelligence among the people to doubt the stability of the Union. And the charge, let it come from what source it may, is a slander upon the American people.—*Columbus Rep. (Dem.)*

The President's petifogging Message finds but little favor save in the eyes of those who are regularly enlisted in the service of the Administration. And of these, we have yet to see the first one who at heart approves the studied misrepresentation of Northern sentiment and action on the subject of Slavery.

GAME IN WISCONSIN.—We notice from the papers that game is over common plenty in all parts of the State. We see venison is being sold daily in our streets, as common as pork and beef and at about the same price. Prairie chickens, pheasants, quails, &c., are offered by the boys at our doors—chickens and pheasants at $1,00 to $1,25 per dozen, quails at 40 cents, rabbits $1,00, &c.—*Lancaster (Grant Co.,) Herald.*

We wish that our friend of the *Herald* would send some of the Grant County surplus game over this way. Quails are neither plenty nor cheap here, this year.

SNUBBING THE CHIEF JUSTICE.—Chief Justice WHITON, in the proper discharge of his duty, administered the oath of Office to COLES BASHFORD, as Governor elect of Wisconsin. Whereupon, Mr. BARSTOW, who had also asked the Chief Justice to swear *him* in, notified that functionary that his services would not be wanted and sent for Judge COLLINS, of the Circuit Court, to administer the oath. It does not appear that the Chief Justice took the matter greatly to heart.

GORGE IN THE MISSISSIPPI.—On Friday last the Mississippi was frozen over for a distance of ten miles above St. Louis, and on the evening of that day the river was gorged below as well as above the city. The gorge in fact extended to Alton, and the steamer St. Paul, on its way to that city, was frozen in 7 miles below St. Louis, and without fuel.

CELEBRATION AT HORICON.—There is to be a grand celebration at the "Winter House," Horicon, this evening, in honor of the opening of the La Crosse Railroad to that point. We acknowledge the receipt of invitations to the party, and intended to have been present; but our two days experience in going to and returning from Madison, during this bitter cold weather, disinclines us for another Rail Road ride just now.

OUR CITY BANKS.—The semi-annual reports of two more of our City Banks will be found in this morning's paper. The State Bank ranks among the leading monied institutions of the Northwest and its affairs are conducted with equal skill and success. Its capital now, $25,000, is shortly to be increased to $100,000.

POPULATION OF ILLINOIS.—The Chicago *Tribune* states that the aggregate population of Illinois, by the recent census, is 1,800,250. This is large increase over 1850, when the total population was 850,000. Illinois will run Ohio hard in the next U. S. census.

AN EXCELLENT APPOINTMENT.—We learn from the *Patriot* that THOS HOGG, Esq., of Madison, has been appointed Commissioner for the State of Wisconsin, to take the testimony of witnesses to be used in the investigation of claims against the United States, before the Court of Claims.

How Jenny Lind was Trapped at Calais.

JENNY LIND had resolved not to sing in France. This resolution lies at the bottom of the following Parisian gossip, said to have appeared in a Paris paper, but which we find in the Boston Atlas:—

Some of the provincial dilettanti boast of being astute and intrepid. Should they cross the channel to hear the songstress at London? What would be the advantage of possessing audacity and talents, if they were reduced merely to this excursion, in the reach of anybody who has louis d'or and some hours to expend. It would be admirable to hear Jenny Lind without paying any money away, and without quitting the town. It would be to make her break the obstinate resolution she has formed of never singing in France. What a triumph and what an honor, if anybody should succeed in such an undertaking! But how could success be hoped?

The songstress was scarcely installed in the suite of rooms prepared for her, when three gentlemen appeared. They forced the orders which had interdicted the door to all visitors; they entered as possessing authority. Their severe nature, their magistrate's air, their coldly imperious manners, announce them as persons charged with a grave mission. One of them spoke to the songstress, whom he addressed without saluting her, saying in a dry, abrupt tone, 'Give me your passport, Madame." Jenny Lind, astonished, but faithful to her resolution of silence in France, gave up her passport without profering a word. The gentleman read and examined it with an attention which denoted the profound fear distrust, then he added, with a rudeness mixed with irony, "Oh! we know you have neglected no precaution, and that you travel under an assumed name."

"For whom do you take me, pray?" asked Jenny Lind, obliged to speak. "Don't hope to deceive us. You will see we are well informed. An intriguant of the most dangerous species has been staying in Paris for some time past, where she made numerous dupes, and after having secured a good deal of money, she is now attempting to reach England." "And do you suppose, perchance ——?" "That you are that woman, yes, Madame; your face, your person suit with the description we have received. Our information is most exact." The songstress exclaimed, became indignant, protested that she was Jenny Lind. Her earnest denials made no impression on an ironical incredulity. The spokesman of the party asked if she had any friend who would be the surety for her identity, if she possessed no means of proving her right to the name she claimed. Jenny Lind knew nobody. "Then, Madam, we must take you temporarily into custody." At these words the protestations of the great artist became more animated than ever; she was interrupted in them by this following proposition:

"Now, Madam, you may very easily convince us. You pretend to be Jenny Lind, eh? If you speak truly, you have no need of surety, nor of testimony; you have in your own power the striking proof of your identity. Nothing is easier for you than to prove that you are indeed a great artist, possessor of incomparable talents, and an admirable voice. I know enough of music to judge of that. Then sing us your proof." There was no answer to avoid this appeal, and the songstress, placed in a dilemma, hesitated which way of escape to adopt. "Ah? I was sure of it," added the author of the proposition; "you are confounded. Abandon that disguise, which betrays you, and profane no longer an illustrious name!" "It is mine, sir!" "Enough! enough! madam, your affirmations are denied by the impossibility you find yourself in, of proving what we ask you to demonstrate. To jail, madam, to jail!" "Well," said the songstress, conquered and resigned, "if it must be done, listen and judge."

Then, after a moment's silence, that her vexation might be silenced, she sang the Cavatina of Norma. The pure, powerful, melodious voice lavished all its wealth. The three gentlemen were delighted beyond expression. Their manner made Jenny Lind detect the trap into which she had fallen. The gentlemen avowed their guilt and implored her pardon with so much grace and eloquence, adding, "if you will pardon us, our benevolence shall make the poor bless your name." Jenny Lind was touched. She pardoned their imprudence.

POLITICAL DEXTERITY!—Getting a Government officeholder to disgorge his money in order to guarantee one's election, and then going to Washington and endeavoring to procure the removal of that officer!

That is a Wisconsin game!—*Appleton Crescent, (Dem.)*

Does the *Crescent* mean to intimate that Gov. BARSTOW has been playing that game? And if so, can it tell us how he fared in his Washington mission?

From the New York Journal of Commerce.
Fires in 1855.

The following table comprises all losses by fire in the United States since the commencement of the year just expired, and shows that the average destruction of property per month, from this cause, considerably exceeds one million dollars,—the total for twelve months amounting to $12,-538,000. This is exclusive of all losses less than $10,000:—

	No. of Fires.	Am't of Loss.
January,	31	$1,825,000
February,	31	940,000
March,	42	1,065,000
April,	27	1,200,000
May,	29	1,288,000
June,	32	1,291,000
July,	20	1,050,000
August,	23	695,000
September,	17	480,000
October,	28	800,000
November,	21	815,000
December,	35	1,845,000
		$12,538,000

Sixteen of the fires in December consumed manufacturing property, and the principal losses through the year are of this character. Eight steamboats, mostly on Western waters, were also destroyed in December,—the loss from this source alone amounting to $300,000. The most destructive fires occurred at Memphis, St. Louis, Sing Sing, New York, and Jacksonville, Fla.

The Candidates.

There is the usual full supply of candidates for the minor offices about the Legislature already in the field. They arrive in advance of the members, and have "a lean and hungry look."

The subject of the Speakership is beginning to loom up. The rabid Barstow Democrats are understood to favor Wm. Hull, Esq., of Grant, while the more moderate sort, and those opposed to the Barstow dynasty, will probably support Judge Knowlton, of Lafayette. Hon. Chas. Burchard, of Dodge, is the most prominent candidate of the Republicans. The latter, however, are in the minority, and will not be able to elect their man without the aid of votes from one or the other wing of the Democracy.

In the Senate the Republicans have a majority, and will probably elect the officers of that body. Byron Paine of Milwaukee, Joseph Baker, late of the Janesville Free Press, and N. M. Donaldson of Fond du Lac, are the most prominent Republican candidates.

Judge Armstrong of the Janesville Standard, and W. P. Dewes, of Grant county, are pushing their claims for the Chief Clerkship of the Assembly among the Democracy. Both are Barstow-men, and Dewey has the prestige of that potent "Dunn family influence," the strength of which was pointed out by Barish Brown, in the Barstow State Convention, in a most graphic manner.

For the subordinate offices, we have prepared no list of candidates. It would be longer than Homer's catalogue of the force enlisted for the contest on the "ringing plains of windy Troy." —*Madison Journal*, Jan. 9.

SAVED FROM FREEZING.—Two men named Adolph Nichet and La Force, left Two Rivers in a small boat about noon on Thursday, to get their nets about four miles out in the Lake. The day and night were intensely cold, and when they attempted to return, they were prevented by the ice which had formed in the bay. Their absence created no little anxiety and when the night passed away without bringing them back, the excitement was intense. Word was sent to the place and about one o'clock, P. M., on Friday, the lookout discovered a boat, and the glass conveyed the intelligence that the men were still alive. A boat was procured and S. Houghton, O. Horton, E. Smith, D. Richardson and —— started after them.

A dead sea, rolling in the bay, had broken the ice, and with the wind two points free and oars double banked, the boat was urged through the water and floating ice, in the direction of the poor fellows who were rapidly drifting out to sea and who were soon hidden in the thick fog.

After about two hours hard labor, the boat was discovered half a mile ahead, and was soon came up with. The sight was an appalling one; the poor fellows in the last stages of exhaustion were still convulsively struggling in the grasp which was rapidly closing round their vitals, and their stiffened fingers still clutched the oars, while they strove to reach the shore, while the blood bursting through the cracked skin of the face, and congealed on the outside, was a sight which once seen could never be forgotten.

Coats were stripped off and wrapped round the sufferers, and after reaching the shore about three miles south of here, they were sent to town in a wagon under the medical care of Dr. Deming, they are doing as well as could be expected.

It was at first supposed that one of them would lose one of his feet, but late accounts are more favorable. One of the crew of the rescuers boat was frost-bitten, but we are happy to inform our readers that he was not sufficiently injured to justify any apprehension for his future usefulness.—*Manitowoc Tribune.*

Ship-building at Buffalo.

The *Commercial* of the 3d inst, gives a collation of interesting statistics in relation to ship-building in that city during the last season. The following tables will show the number and description of vessels, their tonnage and cost, built at that port during the year 1855, and also of those now under contract and on the stocks:

Bidwell, Banta & Co., have built or have on the stock the following, besides several other vessels:

Five schooners for Bruce & Co., of Chicago, length respectively 138 feet, beam 26 feet, hold 10½ feet; cost $17,000 each.

Steam tug Rescue, for H. C. Walker of Buffalo, and B. S. Shepard of Chicago: length 125 feet, beam 25 feet, hold 10 feet, 255 tons; cost $20,-000.

Propeller Chicago for the American Transportation Company, length 150 feet, beam 21 feet 8 inches, hold 12½ feet, tonnage 758: cost $50,000.

The hull for a steamer, (in which is to be placed the powerful engine of the well known steamer Empire State) for Capt Forbes; length 230, breadth 40 feet, hold 14 feet. She will cost when completed and ready to run, about $200,-000.

A propeller for P. L. Starrberg & Co., Buffalo; length 167 feet, beam 31 feet 4 inches, hold 12 feet 10 inches; cost $50,000.

A propeller for Spencer & Co., of Chicago, length 117 feet, beam 20 feet, hold 11 feet; cost $40,000.

A propeller for Capt. Montgomery, of Buffalo length 199 feet, beam 30 feet, hold 10 feet; cost $45,000.

A propeller for themselves and Sidney Shepard, length 175 feet, beam 33 feet, hold 12½ feet; cost $15,000.

A steam tug for the same parties: length 100 feet, beam 20 feet, hold 9 feet; cost $18,000.

The aggregate business of this firm for dockage and repairing vessels during the season was $122,000.

The above named firm employ 600 men, and at times more. Their hardware bill with a single house was $40,000 last year. Mr. P. N. Jones employs 150 men, a capital of $60,000, and used last year 2,000,000 feet of lumber. Mr B. B. Jones employs 100 men, and used about 1,500,-000 feet of lumber last year. The number of men regularly employed in the yards is 1,200, with about 4,500 persons subsisting upon their earnings.

The best lumber and timber used in the construction of lake crafts at Buffalo are obtained from the neighborhood of Lockport, N. Y., and from Port Clinton, Ohio, although a considerable portion of excellent material is derived from various ports in Canada West.—*Chicago Press.*

The Oath of Office as Governor, taken by Mr. Bashford.

"This line goes mainly.
* * * * * * * Macbeth
To rips for shaking, and the pow'rs above
Put on their instruments."

It is now definitely settled that Coles Bashford, the Governor elected by the people, claims his right to that office, and will persist in pushing that claim until it is decided by the highest judicial authority of the State. Mr. Bashford, accompanied by Judge T. O. Howe of Green Bay, arrived here last Saturday evening. Hon. J. H. Knowlton, one of his counsel, was already here, examining evidence and authorities preparatory to the suit contesting the decision of the Board of State Canvassers.

In accordance with the advice of his counsel, Mr. Bashford took the oath of office as Governor, at half past 12 o'clock yesterday. The oath of office was administered by Chief Justice Whiton, in the Supreme Court room. The fact that he would be sworn in was known to none of our citizens until about a half an hour prior to the time appointed, but circulated with marvelous rapidity, and the court room was filled with spectators. The Barstowites were evidently somewhat taken aback by this, to them, unexpected proceeding. There has, all along, been a lingering hope that there would be no investigation into the frauds of the canvass. The Barstow press have prophesied that when the time arrived, Mr. Bashford would decline attempting a contest. Stories have been busily circulated of late, in this vicinity, by Barstow men, that he had declared that he should not press his claims. Everything that could be done to discourage his proceeding has been attempted, and the wiseacres who depend upon the *Argus* of this place, for their information on public matters, were all agape with astonishment to find that, notwithstanding its repeated asservations to the contrary, Mr. Bashford was here to assert his rights and the rights of the people of the State.

While the Chief Justice administered the oath a profound silence prevailed among the crowd of persons present. After the ceremony was ended the assemblage retired with no other demonstration except a general congratulation with one another that Mr. Bashford had sufficient grit to proceed, and that the scoundrelisms by which he was defrauded of the certificate of election were about to be brought to light.

We shall now see whether the opposition are willing to submit to the test of an investigation or not. If there has been fair play, if Mr. Barstow and the canvassers believe that the returns upon which his certificate was awarded were not in part forged and fraudulent, they will throw no obstacle in the way of this suit. They will desire that it should proceed. They will be anxious to be placed right before the world. They will cry: "Let the galled jade wince, our withers are unwrung." We shall see. Honestly, fair dealing, do not shun the light. We have yet seen no pretence, however, by the opposition of any ground of hope on their part, except, "the law's delay;" the hope that through the slowness of legal proceedings, two years of plundering and extravagance might elapse and the rightful possessor of the office be excluded from all redress. Will they acknowledge their guilt by attempting this game? Mr. Bashford's counsel, as it has already been announced, are Messrs. E. G. Ryan, J. H. Knowlton, T. O. Howe and A. W. Randall, comprising some of the most eminent members of the legal profession in the West.—*Madison Journal.*

AN ARGUS FALSEHOOD NAILED.—The *Argus* of Monday devotes its editorial columns to traducing and misrepresenting Mr. Bashford. The following communication exposes one of these wilful falsehoods, and shows the character of that sheet respecting its political opponents:

MADISON, Jan. 8th, 1856.

EDS. STATE JOURNAL:—*The Argus and Democrat* of Monday last states that Mr. BASHFORD just prior to his taking the oath of office as Governor, on that day, "visited the telegraph office, and telegraphed to Milwaukee as follows:

"*Gov. Bashford will be sworn into office at 12½ o'clock precisely.*"

In compliance with your request to state, whether this assertion by the *Argus and Democrat* is true or false, I have only to say that Mr. Bashford did not send this dispatch as charged by that paper, and that he sent no dispatch of any kind by telegraph on Monday last.

—*Madison Jour.*

Among the incidents at the New England Dinner in Boston, was the following:

Wendell Phillips declared that he would not acknowledge the right of Plymouth to the "Rock." "It undoubtes," said he, "the whole country, and only crops out here and there.—It cropped out where Putnam said: 'Don't fire boys, until you see the whites of their eyes.' It showed itself where Ingraham resented Martin Kosta from Austrian despotism. Jefferson used it for his writing desk, and Lovejoy levelled his musket across it at Alton. I recognized the click of it to day, when the great apostle of the higher law laid his beautiful garland upon the sacred altar." [Mr. Seward remarked that he was not a descendant of the Pilgrims of the Mayflower.]—"He says he is not descended from the Mayflower," resumed Mr. Phillips. "That is a mistake. There is such a thing as pedigree of mind, as well as of body, and he knows so much about the Mayflower, that I am sure, as a western man would say, he was 'thar.'"

ALARMING EPIDEMIC.—The New York *Courier and Enquirer* says: "The malady which has apparently seized upon the members of the House of Representatives, and delays the organization, seems to be spreading. It made its appearance in the Assembly at Albany, on Tuesday, and has developed itself, of a virulent type, among the Governors of the Alms House, where eight ineffectual ballots were had for President."

☞ Commissioner Manypenny, in a recent "talk," with a delegation of Chippewa Indians, stated that it was his intention to break up the practice of Indians coming to Washington, and that it would be better for them to stay at home quit "talking" and refuse to sign their names to papers they do not understand.

Stocks, Bonds and Money in New York.

From the Circular of Messrs MARIE & KANTZ, prepared for their European correspondents by the last Steamer, we extract the following.

NEW YORK, Friday, Jan. 4, 1856

Our last circular was to the effect that on the New Year holiday having intervened, the present advices refer to but three days' business. The payments since the 1st have been very considerable; but it is yet too early for the money market to be affected. Stocks have fallen off slightly since the 2d, have fallen back. State Stocks are firm, with not for sale. Missouris have advanced of the year. Gas and County Bonds have been very active, selling generally in small lots at a time. The demand has run mostly to Detroit, Chicago, Louisville, Milwaukee, Pittsburgh, Keoma, Rochester, St. Louis, and San Francisco City Bonds. Railroad shares are rather dull, with limited business. In them is: mortgages are 1 Second, lower, Erie 1855 Bonds, and Treeland Bonds have been active. Bonds not quoted at the Stock Exchange—Michie on Central 8 3) cent. 1902. Police Court, Jan. 9.

C. C. Woodworth was fined $2,00 for leaving his team unhitched; M. Belore for the same offence, $2,00.

To-day, Jan. 10, is the return day of the suit of Leopold Kessling vs. the City of Milwaukee—brought to recover the value of a horse which fell through Cherry Street Bridge. J. H. Paine & Sons for Plaintiff, E. Foote, City Attorney, for the City.

Shephard Londsley, arrested and committed for trial on a charge of stealing hogs in Racine County some time since, was brought down from Jail and admitted to bail in the sum of $200.

There was another warrant against this man for stealing hogs, but upon which no return has been made; the prisoner was discharged under the directions of the District Attorney.

BRUTAL CONDUCT OF A LANDLORD.—Yesterday evening, a man named William Alben, a native of New York City, and formerly in business as a painter there, applied to the Chief of Police under the following circumstances:

He stated that he had come to the city destitute, and had obtained work at $8 per month and his board; that the day before yesterday and on Monday, he had left his work, as his feet were so frozen he could not stand it to work; He stayed at a tavern kept by J. Hoy, in the 3d Ward; he was unable to pay his bill, $1,38, and had his boots off, when yesterday the landlord turned him out and kept his boots, the only pair he had, and which he had previously taken off to ease his frost-bitten feet, and turned him into the street in his stocking feet.

The Chief of the Police sent Policeman Garlick to Hoy's with the man, under directions to obtain the boots for Alben, if he could *civilly*. Hoy's statement of the matter agreed with that of Alben, but he refused to give up the boots, and ordered the officer to leave the house, and still holds on to the boots, while Alben had to travel the streets in his stocking feet.

This is the most brutal treatment we have ever known a landlord in this city to inflict upon a guest; to turn a man into the street yesterday, without boots or shoes, was inhuman. We understand that Alben has already found friends, who are able in means, and determined in will, to try what redress the law will afford him for the taking his boots and turning him into the street in his stocking feet upon frozen sidewalks, with thermometer below zero. We should advise this kind hearted landlord the next time he wants to exhibit his kindness to wait till his guest is *in bed* and take *all* his clothing, and *then* turn him out.

THE COLDEST DAY YET!—The cold reached a climax yesterday morning, the thermometer in various parts of our city marking at sunrise from twenty-three to twenty-four degrees *below* zero. At 2 P. M., as we learn from Mr. VLIET, it was 26 degrees below zero, at the La Crosse R. R. Depot in the Second Ward. This, we believe, is the lowest range of the mercury we known in our city. Certainly the 48 hours from noon to Wednesday noon, were the coldest consecutive 48 hours we remember ever to have felt. The sky was cloudless and the sunshine brilliant, but the wind blew freshly from the West, and its biting breath cut most keenly. In the afternoon, yesterday, the cold moderated sensibly, but as the sun went down it grew Siberian again. Such extreme and continuous cold weather must cause a vast amount of suffering among the poorer classes. Let their more fortunate fellow-men remember and relieve their wants.

MILITARY AND FIREMAN'S BALL.—The members of Engine Co. No. 1 intend to give a grand Military and Firemen's Ball on Thursday evening next, and are making all necessary arrangements to ensure a successful festival. The Common Council have given this old and reliable company a new and excellent engine, and now they want to provide themselves with uniforms to match, in place of those worn out by long and faithful service. The proceeds of this ball will be appropriated to the object, and we hope that the liberality of our citizens will enable No. 1 to equip all their members, neatly and comfortably.

POLICEMEN'S STARS.—Yesterday, the City Police commenced to wear their "Stars," on the left breast of their coats; they are of copper, silver-plated, and on them is engraved Milwaukee Police, and each star is numbered. This is in accordance with the ordinance, and is a protection to the Policeman, as well as to the public; the star shows the public that the wearer is an officer, and at the same time the public can know who it is that commits a derilection of duty.

PRINTERS' FESTIVAL.—The Printers of Milwaukee intend to celebrate their peculiar anniversary, Franklin's Birthday, on Thursday week by a Ball and Supper at the Armory of the Light Guard, (late Concert Hall). This, we believe, is their first professional celebration, and they mean to show their fellow-citizens how well Printers can do these things.

THICK ICE.—Mr. Kreeger, the enterprising Iceman, informed us yesterday that the ice at the mouth of the river is now twenty inches thick, and beautifully clear. He also says that this is the thickest ice he has seen since 1845; fourteen inches being the thickest he had previously seen at any time since that year.

ERRATUM.—In our list of the newly elected Officers of Engine Company No. 6, published yesterday, the name of HENRY MIDDLETON appeared, as Trustee for 2 years. Mr. MIDDLETON is the newly elected Trustee for Engine Company No. 1. The Trustee for No. 6 is Mr. QUIRK.

LIGHT GUARD SOIREE.—The second of the series of parties announced by the Light Guardes came off at their Armory on Monday evening. It was well attended and all present enjoyed themselves greatly. The supper was provided by RELDEN and was worthy of his reputation.

ACKNOWLEDGEMENT.—The Members of the Milwaukee Light Guard request us to make special acknowledgement of a box of very choice Segars, presented to them by Mr. HOWARD, of the Segar Depot on East Water Street opposite the Walker House.

GAS.—The Gas burns dimly enough this extreme cold weather, but we suppose there is no help for it. The main service pipe on East Water Street, burst Tuesday but was quickly repaired by the efforts of Superintendent CLARK and his men.

MR. WM. PAY, teacher of Velvet and Grecian Oil Painting, announces in our advertising columns that he is ready to receive pupils. Some of his specimens, which we have seen, are very beautiful.

I. O. O. F.—The Grand Encampment and Grand Lodge of the Odd Fellows, hold their annual session in this city, next week. See notices of the G. Scribe and G. Secretary in our columns.

BRASS CAP LOST.—The brass cap, which fits the suction of Engine No. 1, was lost at or near the fire in the Fourth Ward, Tuesday evening. The finder is requested to return it to the Secretary.

WALL, at the City Land Office, sells the balance of the Messenger Lots, in the Second Ward, at 10 o'clock this morning.

IN JAIL.—There are 88 prisoners confined in Jail at present, 6 of them are females.

RICH AND SUBSTANTIAL PRESENTS.—We advise all to remember the splendid assortment of Dry Goods while Messrs. Mack Brothers, of the Milwaukee, SAVINGS STORE, 121 East Water Street, now have on hand. I consists of Silks & Merinoes for Ladies dresses, of all styles and patterns, together with a most recherche Stock of Cashmere and Brocha Shawls, which are afforded at prices much below the ordinary standard. If a person wishes to make a holiday present of real value, they should not fail to remember that a Dress or a Shawl will be a more substantial gift to a mother, wife or sister, than almost any other they could bestow. The Establishment of the Messrs. Mack is just now the resort of all the fashionable shoppers of the town, and the Milwaukee SAVINGS STORE, has become the popular place for Dry Goods. They have obtained their reputation by selling so cheaply, that no one can scarcely compete with them. Remember that. dec28d3m1dw

(Advertisement.)

S. ADLER & NEWBORER seem to be really in earnest in what they say in their advertisement of to-day. Knowing very well that there are some who make an apparent show of selling at low figures, and a little less than the bosses, thereby inducing customers to visit their stores, and then charging exorbitant prices for their goods. They respectfully invite the fashionable as well as those who are not fashionable, to call upon them, and be convinced tha they can and do sell goods at as low figures as any other store in the west, and many articles for less. Give them a call.

WINDOW AND LOOKING GLASS.

THE NEW YORK

MUSICAL REVIEW AND GAZETTE

COMMENCES its Seventh Year, and a New Volume, in January, 1856. In calling attention to the Review, its publishers believe they can present to the public no more satisfactory evidence of its excellence as a musical journal than is afforded in its constantly increasing success. It has now about three times as large a circulation as any other musical periodical in the world. Its receipts from subscribers during the last six months have been more than double those for the corresponding period of the year previous. By such flattering marks of approval the publishers are inspired to increased enterprise and exertion to add to the excellence of the *Review*. Prizes amounting to three hundred dollars were recently offered by literary gentlemen for its pages. Of the vast number sent in to compete for those prizes, the best were selected by a competent committee, and are now in course of publication in the *Review*. When their publication is completed, the subscribers to the *Review* will decide by ballot which shall receive the prizes.

Besides a large amount of reading matter, including regular correspondence from the leading cities in the world, each number contains several pages of new music. A series of articles on Music Teaching, by Dr. LOWELL MASON, is now in progress of publication. Another, by GEORGE F. ROOT, Esq., on Cultivation of the Voice, Vocal Training, &c., will be commenced in the beginning of the new volume, as well as one by WM. B. BRADBURY, Esq., on the Improvement of Church Music. The New York Musical REVIEW AND GAZETTE is published fortnightly, at one dollar per annum, or six copies for five dollars, payable in advance. Specimen copies sent gratuitously.

PROFESSIONAL NOTICE.

DR. F. W. BARTLETT, long associated in practice with his brother-in-law, DR. ROZEAR HUNTER, in New York, has removed to Buffalo, and devotes his entire attention to the treatment of affections of the throat, Bronchitis, Asthma and Consumption. The medical agents employed by us are directly applied to the membrane or organ diseased—o the *nasal passages* and throat by syringes, and to the bronchial tubes and lungs by an inhaling instrument. To these means are conjoined such general medication as varying symptoms may require. The efficacy of the practice is fully attested by numerous patients throughout the country, to whom reference may be made.

Caution to Western Merchants.

Learning from some of the respectable merchants o Chicago, that my Schiedam Aromatic Schnaps is extensively counterfeited by a number of Liquor mixers in New York, Philadelphia, and Boston, and finding that the pirates daringly advertise their pernicious deceptions under the name which belongs to my article, I think it necessary to caution the community against these vendors of poison in disguise.

I introduced the Schiedam Aromatic Schnaps for the purpose of supplying the medical faculty, and the whole community with a pure medicinal spirit, which might be prescribed with confidence, in all cases where stimulants were required, without producing the fearful consequences which invariably result from using adulterated liquor. In order to render assurance doubly sure, I had the article anyalzed by physicians of world wide celebrity, and submitted it for experimental test to thousands of distinguished medical practitioners. The responses from these sources were of the most unequivocal and satisfactory character It is now before the public, surrounded with these guarantees, and bearing these unimpeachable endorsements, and call upon the community to protect themselves and me their own health and my reputation, by frowning down and repudiating the piratical speculators who are pedling their foul commodities under cover of my trade mark. No article had ever been imported from Holland into this market, under the name of Schnapps, previous to the appearance of Wolfe's Schiedam Aromatic Schnapps, in this city.

☞ The first importation being made into this city in the year 1845, which can be seen by the Custom House Books, I deposited my label as a trade mark in the United States District Court of the Southern District of New York, in the year 1851, and have the certificate in my possession of the state. The great demand which has thus been created for the genuine article, has set the whole hive of counterfeiters in motion, and the duty I owe to my customers and friends and the public, compels me to put them on their guard against imposition.

The genuine is put up in quart and pint bottles, with my name on bottle, cork and label, for sale by all the respectable druggists and grocers in the United States.

UDOLPHO WOLFE,
18, 20 and 22 Beaver street, New York.

Among the complaints for which the Schnapps has been declared a specific by the eminent physicians who have corresponded with the proprietor, are dropsy, dispepsia debility consequent upon long continued sickness and old age, epilepsy, asthma, gravel, colic, affections of the kidney and all chronic diseases of the genit-minary apparatus.—For these and many other disorders, it is now prescribed with great success, by more than three thousand medical practitioners in various parts of the United States.

CHAS. PREUSSER,

TAKES PLEASURE IN announcing to his friends and customers, and the Public generally, that he has removed to his new and elegant Store, No. 135 East Water Street, rapidly increasing business, on the corner of East Water and Mason Streets, opposite the Walker House and Post Office. Where he is receiving almost daily additions to his large stock of

CLOCKS, WATCHES, JEWELRY, SILVER AND PLATED WARE, FANCY GOODS,

in fact of everything usually to be found in a well assorted business of this kind.

As his stock is all new, of the latest and most fashionable styles, purchased direct from manufacturers and importers, and will be sold at a very small advance, he flatters himself that both Prices and Goods will give general satisfaction.

The Repairing of Watches and Jewelry will be as heretofore under my personal superintendence, and I have engaged help enough to do all work with despatch. Thankful for the kind patronage, so liberally bestowed upon me during the past Eleven years by the Milwaukee Public, my friends and customers may be assured that no effort on my part will be wanting, to merit a continuance of the same.

BY

HERSCHEDE & SCHENDT,

c. 131, Corner of East Water and Buron Streets.

WE have now completely furnished, and very much enlarged our new store, with all the articles belonging to our trade. Our confectionery has had the very best reputation, which we will try to keep for all future; and as we will recommend them to both Grocers and Confectioners, for all festivities of the season. Our stock of toys has been selected in New York, by Mr. Schendt himself with the greatest care, and can defy competition in Milwaukee, in regard to cheapness, quality and fashion.

By completing our new building we have gained a great deal of space, and intend to use the first story—the present storeroom—for the Retail trade, and the second room for the Wholesale business.

Almonds, Nuts of all kind, Prunes, Raisins, Currants, Citron, Dates, Fresh Sardines, etc., at Wholesale & Retail, also Toys from 2 cents to $10 apiece, for sale at Milwaukee, Oct 20. HERSCHEDE & SCHENDT. 43m

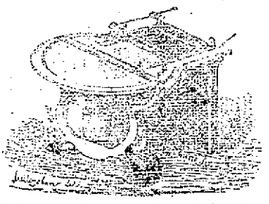
EVARTS' PATENT SHINGLE MILL



EVARTS & BUTLER,

PROPRIETORS, MANUFACTURERS,

CHICAGO, ILLINOIS.

FOR SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority is produced by making the cutting of the shingle from the butt of the cut.

The ease with which wood is worked in that direction gives it speed of execution; and the flexibility of the shingle when so cut relieves the saw, so that it may be ground thin on its edges, and so cut away but little of the wood.

The shingles now made with this mill sell in this market seventy-five cents per thousand higher than any other sawed shingles.

This mill is made entirely of iron—strong, simple and in the best workmanship, easily worked, and not liable to get out of order.

NOTICE TO ICE CONSUMERS.

THE UNDERSIGNED, the oldest ICE trader in the City of Milwaukee, would inform the Public that he, as usual, will be found in the neighborhood of the Lumber, in order to procure the clearest and best Ice; and also that he will place around the holes which he cuts in the bay, blocks of Ice as a fence, that every body may be warned from danger. The cutting will commence about the First of January.

If the Common Council will appoint an overseer, I shall have no objection, and I would even pay the same each, if required.

I am confident that the Public will appreciate my endeavors to provide them with the best Ice, at the same time guarding them from danger.

In order to be better to do this, the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools all kinds of Planing or Shaping Machine, three Lathes, and a Machine for making bolts, and are now putting in a Steam Engine of sufficient power to drive the whole, thereby adding to the former facilities for the successful carrying on of the Foundry, Machine, Engine and Blacksmithing business. They never stood in better position for doing business, and

in any department.

In regard to the character of the work got up by this

The Oldest Establishment in the State,

the Proprietors refer to that in successful operation through the country as their best recommendation, as it can speak for itself. All that they say is, that they are both Practical Mechanics, and know how work should be done as well as the most men.

They continue to manufacture FLOUR and SAW MILL GEARING, and STEAM ENGINES, on the most approved principles.

They have always on hand a large stock of BRASS WORKS, such as Globe and Angular Gocks, Gu Cocks and Cocks, and Steam Whistles. Also Turton's Files, which they will sell at the lowest cash prices.

They are also Agents for Jones' Patent Steam Gauges, which are well worth the attention of all those who use Steam Engines.

In conclusion, they invite a continued share of the patronage so liberally bestowed upon the late firm of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it, I was as gray as a man of seventy. My hair has now assumed its natural color. You can safely commend it to the world without the least fear, as my case was one of the worst kind.

Yours, &c.,

DANIEL N. MURPHY.

St. Louis, March 7, 1854.

Prof. Wood:—My hair commenced falling off some three or four years since, and continued to do so until I became quite bald. I tried all the popular medicines of the day, but to no effect. At last I was induced to try your celebrated Hair Restorative, and am happy to say it is doing wonders. I have now a fine growth of young hair, and cheerfully recommend its use to all similarly afflicted.

A. C. WILLIAMSON,

136 Second Street.

St. Louis, June 9th, 1853.

Prof. Wood:—As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state that my hair was, a few months ago, very grey; and after using two bottles of your Hair Restorative, it assumed its original color, and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied those who use it will not regret it, as it gives the appearance of having been recently added. And, therefore, I can recommend it to use to all who are desirous of having a beautiful head of hair.
